March for Climate 2018 - COP24, Poland

Katowice 40078 Poland

plac Wolności 12:00

March for Climate 2018 In December 2018 global political negotiations about United Nations Framework Convention on Climate Change gather in Poland in Katowice – in the heart of Polish coal mining industry and power production sector. Transition into a net zero-emission economy is due, but much too slow. Therefore civil society of Poland, Europe and the World wants to wake up politicians to commit to strong and binding global agreement upon climate change mitigation efforts with rules that will guarantee 1,5°C path. It's time to save our Home ! <https://marchforclimate.wordpress.com/>
