Forum social mondial antinucléaire

Madrid (Espagne)

The Iberian Antinuclear Movement calls on all antinuclear groups in the world to join us for the next Global Antinuclear Social Forum, which will be taking place in Madrid from the 31st of May to the 2nd of June, 2019.

How do I register ?

In this form : <https://goo.gl/forms/YXy1mx60GxeLYbYs2>.

Here you can find all the information relative to inscription.

The registration period will finish on the 30th of April. Logistical information about our sessions will be provided. Please have a look at our website. What are we going to talk about ?

This Forum wants to be a place of participation for the hundreds of struggles and the thousands of people fighting the nuclear threat from many different perspectives. From mining till the lethal use of nuclear energy, they will find their place. For this, we would like to hear all lecture proposals people want to let us know of. In order to organise a space for everyone, we will provide with plenaries but also with talks, workshops, parallel meetings...

Registration costs

With the aim of defraying the costs of organising this Forum, we have established a quota of 10 euros. Added to that, we are asking from the possible lecturers for a contribution of 50 euros. If, in addition to all that, you belong to an organised group, you should know that we need your economic help, as much as you consider appropriate. Nonetheless, we do not seek that this amount entails any hindrance for anyone to participate in the Forum. If you have no funds, you can contact us and participate freely.
